Hello, myself Vijay Kusekar. I was born in Pimpri and I am currently pursuing a Btech CSE from Nutan College of Engineering and Research, Talegaon Dabhade.

Currently, I am working on becoming a Frontend/full-stack developer. I love creating websites. I hang out with a lot of tech Nerds. I am a tech and political geek myself. I am also trying to master C++.

I like to treat people with respect. I enjoy helping people and I love to learn about new technologies... Story of my life :)

My specialties include quick learning of new skills and programming languages, website optimization, responsive design principles and methods of organizing code. So far I have Python, C, C++, Java, Html, Css, Sass, Tailwind Css, Javascript, React Js, Next Js(a little bit), Node Js, express, MongoDB, SQ L, PHP under my belt. I am still enthusiastically grabbing onto any other Programming languages, frameworks or principles I can integrate into the coding web in my head.
